

**NATIONAL MILK
PRODUCERS FEDERATION**
Dairy Data Highlights

October 2014

“Connecting Cows, Cooperatives, Capitol Hill, and Consumers”

The National Milk Producers Federation (NMPF) develops and carries out policies that advance the well-being of dairy producers and the cooperatives they own. For the past 98 years, NMPF has been one of the most recognizable and influential membership organizations in America.

NMPF’s cooperative members produce the majority of the U.S. milk supply, making NMPF the voice of more than 32,000 dairy farmers. Last year, NMPF member cooperatives marketed about 124 billion pounds of milk, representing 62% of the total milk marketed in the United States. In addition, many of NMPF’s member cooperatives are leading processors of fluid milk, cheese, butter, milk powder, and specialty dairy products.

NMPF is the principal voice on national issues for cooperatives and their dairy farmer members.

TABLE OF CONTENTS

U.S. MILK PRODUCTION & OTHER INDUSTRY STATISTICS

Table 1: U.S. Production of Milk, Milkfat, & Solids-Not-Fat	1
Table 2: U.S. Cow Numbers, Dairy Farms, & Herd Size	2
