

Among the benefits of being an NMPF Associate Member:

- Receive timely, regular updates on news impacting the U.S. dairy sector
- Access the broad technical expertise of our regulatory, economic and legislative staff
- Gain industrywide prominence on the NMPF website and in its membership directory
- Have your organization's logo and name listed as a sponsor of NMPF's widely-read daily Dairy Industry News Alert
- Participate and exhibit at the NMPF Annual Meeting at a members-only rate
- Help support NMPF's efforts to defend the image of dairy farmers and dairy foods
- Serve on selected expert committees and panels supporting NMPF's activities

Associate Membership Benefits

Be Connected.

The NMPF Associate Membership program is designed to connect organizations and individuals having an interest in the dairy industry with American dairy cooperatives and their producer-owners. Associate Member status in NMPF gives you increased access to the nation's leading milk marketing decision-makers and selected opportunities to serve side-by-side with other NMPF members in tackling the many challenges facing today's dairy industry.

Be Seen.

Associate Membership in NMPF offers you the unique opportunity to participate in meetings and conferences with America's leading dairy producers and cooperative managers and other farm-level opinion-leaders throughout the industry. In addition, NMPF Associate Members receive preferential status in sponsorship requests, giving them invaluable direct access and exposure to NMPF's cooperative members.

Be Informed.

NMPF Associate Members also receive member-only publications such as News for Dairy Co-Ops, Dairy Market Report, the Daily DINA news report, and Dairy Producer Highlights.

The importance of being part of the dairy community

“Our engagement with NMPF helps Merck Animal Health support dairy farmers, particularly as we focus on our organizations' shared interest in animal care.”

Stephanie Meyers
Merck Animal Health

“It's important for our state organization to connect directly with NMPF as many national policy issues directly affect our organization's members. NMPF has been a tremendous resource in collaborating on critical issues affecting Ohio's dairy farmers. Working together has proven to be effective in sending a unified voice to Congress and government agencies.”

Scott Higgins
Ohio Dairy Producers Association

“The U.S. dairy industry can be a complex enigma with a need for expertise in many areas, such as food safety, sustainability practices, market intelligence, and risk management. Even though our industry is dynamic enough to always challenge us, it is small enough that we need to have the appropriate providers of the necessary services we need to stay competitive. We must rely on each other in this industry.”

Gus Jacoby
T.C. Jacoby & Co.

Fact:

Over 70 organizations have already invested in the value of an NMPF associate membership.

Membership Application

Contact Name: _____

Organization: _____

Address: _____

City: _____ State: _____ Zip: _____
